HOME

IS NOT JUST
WHERE
LIFE
HAPPENS.

It is where life begins to feel like it belongs.

EVERYTHING, BUT A MOMENT OF STILLNESS

The long days. The longer commutes. The noise that follows all the way indoors. Somewhere along the way, home became just another place to arrive at. It was always meant to be more than that.

HOMES THAT LIVE WITH YOU.

Not away from the city. Quietly above it.

A LIFE IN BALANCE

For those who have come to understand that the most meaningful things are not always the loudest, that a home which holds a family gently at the end of a long day is perhaps the finest thing one can come home to.

THE LEAP INTO COMFORT

INTRODUCING THE ASCENT

Rising over BUDIGERE CROSS, 259 homes conceived around a quietly powerful idea, that when a home is designed with genuine care, everyday life begins to feel like something worth coming back to.

NO COMMON WALLS.

The life inside each home belongs entirely to itself.

Every home at The Ascent is an island unto itself. No borrowed sounds. No shared boundaries. No awareness of another family's evening bleeding quietly into another's. The quiet here is not accidental. It was the very first thing the design reached for.

THOUGHTFUL WITHIN.

A home is only as good as the care that went into making it.
Here, that care goes all the way down to the way the walls are built.

Mivan Construction Technology

Walls that stand entirely on their own structurally, acoustically, completely. The silence they hold within is one of the quiet joys of living here.

Natural Ventilation

Carefully planned layouts ensure that air moves through freely, the way it does in a home one always imagined living in.

Vastu Compliant

Each home oriented so that light arrives where it is most welcome, and spaces open in ways that feel instinctively right.

Eight High-Speed Lifts

Six passenger lifts and two service lifts because the everyday experience of moving through a building should feel as considered as the home itself.

WHERE CONNECTIVITY MEETS CALM

A place that holds the best of two worlds the ease of being close to everything,
and the relief of not feeling overwhelmed by any of it.

EAST BANGALORE IS FINDING ITS MOMENT

And Budigere Cross is at the quiet centre of it.

This part of the city has been gathering itself steadily, the corridors widening, the connections multiplying, the infrastructure moving eastward with a kind of unhurried certainty.

The Ascent stands at the point where all of it converges. Not chasing the city's growth. Already inside it.

THE MASTER PLAN

Four acres imagined not as land to be filled but as space to be lived in, slowly, fully, and well.

HOMES THAT UNDERSTAND HOW LIFE IS LIVED

Each layout was thought through not as a diagram on a page, but as a day. How the morning light falls through the sit-out. How the puja room holds the quiet of the early hour. How a room becomes a place a family actually wants to be in.

FLOOR PLANS

Every room is considered. Every window placed where it will be most loved.
Every corner is given a reason to exist.

A HOME HAS BEEN WAITING FOR THIS MOMENT

One where the light stays a little longer in the afternoon. Where the evening settles into something genuinely quiet. Where the sit-out catches the breeze at exactly the right hour. Where walking through the door feels, without having to think about it, like arriving at exactly the right place. That home is here.
