

CONFIDENTIAL - INVESTMENT OPPORTUNITY

BENGALURU · 2026-2027

SOUTH BENGALURU · HOSUR ROAD (NH-44) · KUDLU GATE

Codename *Kudlu Gate*

Where scarcity is the architecture.

Bengaluru

India's enduring engine

A 2-million-strong technology workforce, the highest GCC concentration in India, and end-user driven demand - creating a uniquely durable real estate market.

TECH WORKFORCE

2M+

India's largest high-income technology talent base - a continuous driver of housing demand.

NASSCOM · JLL INDIA

ANNUAL PRICE GROWTH

12%

Weighted average residential appreciation in 2024 - highest across all major Indian cities.

KNIGHT FRANK INDIA, JAN 2025

RENTAL YIELD

4.45%

Bengaluru leads all Indian metros - a 24% increase on pre-pandemic levels.

ANAROCK, Q1 2024

End-user demand, not speculation

Salaried-professional driven demand and continuous in-migration compress cyclical risk. **Premium segment sales grew 91% YoY in 2024** - driven by income growth, not leverage.

KNIGHT FRANK INDIA, H2 2024

GCC capital of the world

Bengaluru hosts **880+ Global Capability Centres** - over 35% of India's total. GCCs constituted 50%+ of the city's office transactions in 2024, anchoring long-term employment growth.

NASSCOM-ZINNOV GCC REPORT 2024

"Unlike speculative markets, Bengaluru offers *balanced returns through both yield and appreciation* – a combination rarely sustained across holding periods in any other Indian city."

- Bengaluru's ~35–40% share of India's IT exports reflects a concentration of high-income employment, directly supporting sustained housing demand (Source: NASSCOM).
- Continued expansion by **Google, Amazon, Goldman Sachs**, and hundreds of global GCCs ensures consistent job creation and long-term housing absorption across all ticket-size segments.
- Bengaluru is ranked **4th globally** for prime residential price growth (April 2024–March 2025) - the highest among all Indian cities. (Source: Knight Frank Prime Global Cities Index, May 2025)
- Bengaluru captures a disproportionate share of national housing demand (~15–18%), while over 55,000 units sold in 2024 with 91% growth in the ₹2–5 Cr segment signals strong premium absorption (Source: ANAROCK, JLL, Knight Frank).

South Bengaluru

Where demand has permanently settled

The south corridor now leads Bengaluru in both launches and sales - driven by a combined 9–10 lakh professional employment base and accelerating infrastructure delivery.

SOUTH BLR LAUNCH SHARE

38%

South Bengaluru led all city zones in H1 2025 - the highest share of any single corridor.

KNIGHT FRANK INDIA, H1 2025

PRICE APPRECIATION

12–15%

Key South Bengaluru micro-markets outpaced several established central zones.

JLL INDIA

India's largest IT cluster

Electronic City alone employs **4–5 lakh professionals across 200+ companies**. Combined with the ORR workforce, the corridor sustains a demand base found nowhere else in South India.

JLL INDIA

Structural demand migration

Koramangala and Indiranagar have reached **pricing saturation**. Demand is now structurally shifting toward connected peripheral corridors - South Bengaluru is the primary beneficiary.

ANAROCK / JLL, 2024

Connectivity

Already delivering

The infrastructure story at Kudlu Gate is aspirational. The Yellow Line is operational, the Kudlu Gate station is live, and further catalysts are reshaping accessibility across this corridor.

INFRASTRUCTURE IMPACT

Metro-adjacent micro-markets in Bengaluru have shown *~20% faster appreciation*

2025

NAMMA METRO YELLOW LINE - OPERATIONAL

The 19.15 km elevated line connects RV Road to Bommasandra across 16 stations, built at ₹7,610 crore. Daily ridership at **60,000–80,000** which is more than double initial projections. BMRCL projects 8 lakh+ daily South Bengaluru commuters as frequency improves to 10-minute headways.

SOURCE: BMRCL / DECCAN HERALD, 2025

2027

NAMMA METRO - 175 KM NETWORK TARGET

BMRCL has committed to 175 km by 2027 and 225 km by 2030. Phase 3 (approved Aug 2024, ₹15,611 crore) adds 44–45 km across two new corridors. Train frequency across all lines targeted at **4–6 minute headways**.

SOURCE: BMRCL / TIMES OF INDIA, DEC 2025

2029

BENGALURU BUSINESS CORRIDOR - ₹27,000 CRORE

117 km, 8-lane expressway connecting Tumakuru Road to **Hosur Road** - Cabinet approved Oct 2025, HUDCO-funded, tenders floated. Projected to cut city traffic by 40% and unlock land value along the southern corridor.

KARNATAKA CABINET / BDA · NEW INDIAN EXPRESS, OCT 2025

Ongoing

HOSUR ROAD (NH-44) CORRIDOR UPGRADES

Ragigudda–Silk Board double-decker flyover operational. AI-powered traffic management deployed mid-2024. Dedicated bus priority lane (Silk Board–KR Puram) active.

SOURCE: NHAI / BBMP, 2025

Kudlu Gate *Hosur Road*

Metro-front. Corridor-critical. Strategically irreplaceable.

Positioned on Hosur Road - 110 metres from Kudlu Gate Metro Station - at the junction of Silk Board where Electronic City, the Outer Ring Road, and Bannerghatta Road converge. The only address in South East Bengaluru that sits at the intersection of all three corridors.

Hosur Road is a limited-supply corridor with no large land parcels remaining. Rising rental demand from professionals and metro connectivity already operational make this one of the most demand-secured micro-markets in the city.

SCHOOLS

MS Dhoni Global School	2.2 km
St Francis School (ICSE)	3.2 km
Greenwood High	4.8 km
National Public School, Kudlu	5.2 km
Bethany High School	7.2 km

COLLEGES & UNIVERSITIES

Dayananda Sagar University (DSU)	1.6 km
NIFT Bangalore	5 km
PES University (E-City Campus)	5.4 km
Christ University	6.6 km
IIM Bangalore	7 km

HEALTHCARE

Sai Sparsh Hospitals	400 m
Jayashree Multispeciality Hospital	4 km
Apollo Cradle & Children's Hospital	6 km
Fortis Hospital (Bannerghatta Road)	7 km
Manipal Hospital (Sarjapur Road)	7.4 km
Narayana Hrudayalaya	12.2 km

Kudlu Gate

A convergence point

Kudlu Gate's investment case does not rest on one employer, one road, or one zone. Its strength is the density of convergence, multiple demand generators, multiple connectivity corridors, proximity to multiple saturated markets.

LOCATION

Hosur Rd
NH-44

Between Electronic City and HSR Layout - direct access to ORR and Sarjapur Road via Silk Board.

EMPLOYMENT CATCHMENT

9–10L

Professionals within a 20-min commute radius - the deepest catchment of any South Bengaluru micro-market.

JLL INDIA

SURROUNDING ZONES

6 High-demand Zones

HSR Layout · Koramangala · BTM · Bellandur · Sarjapur Road · JP Nagar - all within influence radius.

KUDLU GATE METRO STATION ~1 min	SILK BOARD ~8 min	HSR LAYOUT ~12 min	ELECTRONIC CITY ~15 min	KORAMANGALA ~20 min	OUTER RING ROAD ~20 min	J P NAGAR ~20 min	SARJAPUR ROAD ~25 min
--	-------------------------	--------------------------	-------------------------------	------------------------	-------------------------------	-------------------------	-----------------------------

Multi-nodal demand ecosystem

Kudlu Gate draws from **Electronic City, ORR, and HSR Layout simultaneously** - insulating against any single zone softening. Most micro-markets rely on one anchor. This one has six.

Below-peak pricing, above-peak access

Pricing remains meaningfully below HSR Layout and Koramangala - the very markets Kudlu Gate now directly connects to. **The access has arrived. The pricing hasn't adjusted yet.**

- Silk Board Junction** - the confluence of ORR, Hosur Road and Electronic City Expressway - sits within 8 minutes, enabling multi-directional access to every major employment zone in South Bengaluru.
- Karnataka GCC Policy 2024–2029 targets **500 new GCCs and 3.5 lakh new jobs** by 2029 - a policy-backed floor under Bengaluru's employment and housing demand. *(Karnataka Govt / NASSCOM, 2024)*

Codename Kudlu Gate

Boutique. Considered. Rare.

In a corridor defined by large-scale developments, Codename Kudlu Gate introduces deliberate restraint.

CONFIGURATION ~20 Floors Single tower on ~1.7 acres - not a township. Low density by design.	TOTAL RESIDENCES ~145 8 units per floor - central core - optimal light & privacy for all.	OPEN SPACE ~76% Pedestrian-first environment - rare in urban high-rises.
SITE AREA ~1.7 Acres A focused, intimate footprint - keeping scale intentionally low and open space exceptionally high.	EV PARKING 100% Every unit paired with EV-capable parking. Future-ready infrastructure.	EXTENDED LIVING FRONTAGE 2 Balconies Creates extended living zones while improving airflow and overall livability

RESIDENCE FEATURES

 BATHTUB IN ALL 3 BHK	 VIDEO DOOR PHONE ENTRY	 20+ LIFESTYLE AMENITIES	 4 LIFTS IN THE TOWER

Residential Plans

Return

Structured across time

Six pages of evidence reduce to one conclusion - demand is real, infrastructure is live, and this asset class is rare. Here is what that means in numbers.

THE CITY	2M+ tech professionals. 880+ GCCs. 12% price growth in 2024. Bengaluru is the only Indian city where economic expansion reliably converts into residential demand.
THE CORRIDOR	South Bengaluru leads the city in launches (38%) and sales (32%) in H1 2025, anchored by a 9–10 lakh professional employment base within 20 minutes.
THE LOCATION	110 metres from Kudlu Gate Metro Station. At the confluence of Electronic City, ORR, and HSR Layout - with pricing still below all three surrounding markets.
THE PROJECT	~145 homes on ~1.7 acres. ~76% open space. 100% EV parking. 4 lifts for 8 homes per floor. In a corridor of 500-unit townships, scarcity is the differentiator.

5-YEAR PRICE CAGR · BENGALURU

10%

Bengaluru's compound annual price growth rate from Q4 2020 to Q4 2025 - sustained across multiple market cycles, not a single-year spike.

JLL INDIA · RESIDENTIAL DYNAMICS REPORT Q4 2025

METRO-PROXIMITY PREMIUM

~20%

Outperformance of properties within 0–2 km of metro corridors vs non-metro locations in capital appreciation over a 5–7 year cycle.

JLL INDIA

THE CASE, CONSOLIDATED

~145 homes is a statement. Rarity, here, is not a feature – it is the structure.

01 METRO FREQUENCY IMPROVEMENT Yellow Line moving from 25-min to 10-min headways as more trainsets are inducted - each step increasing station-area demand and rental premiums.	02 BBC PHASE 1 DELIVERY · MID-2027 117 km expressway terminating at Hosur Road - directly connecting this corridor to the city's new ring infrastructure and unlocking further land value.
03 GCC EXPANSION TO 2029 Karnataka policy targets 500 new GCCs by 2029 - sustaining the employment floor that drives rental demand across the south corridor.	04 SUPPLY CONSTRAINT ON HOSUR ROAD No large land parcels remain on this corridor. Future boutique supply is structurally limited - protecting resale liquidity and rental pricing power.

A woman with long brown hair, wearing a white long-sleeved jumpsuit, is walking away from the camera towards a large window. The window is composed of several vertical panes. Bright sunlight is streaming through the window, creating a strong backlight effect and casting long, colorful rainbow-like light flares across the floor and walls. The floor is highly reflective, showing a clear reflection of the woman. The walls are made of light-colored stone or concrete blocks.

When everything
aligns – *the decision
becomes simple.*

Built for what's ahead – in a location already in motion.
