Message from ^{the} **Sapodilla**

Greetings, fellow nature lover!

I'm sure you weren't expecting a message from a tree of all things. But NVT Symphony of Orchards isn't your average villa project! For starters, with an area of 18 acres, we have an abundance of fruit orchards where trees (much like me) look forward to sharing our living space with you and your family.

I'm looking forward to living with people like you, who value the existence of trees. I wish to deepen my roots in this soil, with my fellow trees: the guava, the mango, the sitaphal, and others and be a part of a magical space where beautiful memories with you are waiting to be created.

Welcome to NVT Symphony of Orchards, where we together try to craft spaces for childhoods infused with nature at its purest. At the same time, offering you a home that does justice to the hopes, dreams, and desires as a discerning villa seeker.

Happy exploring!

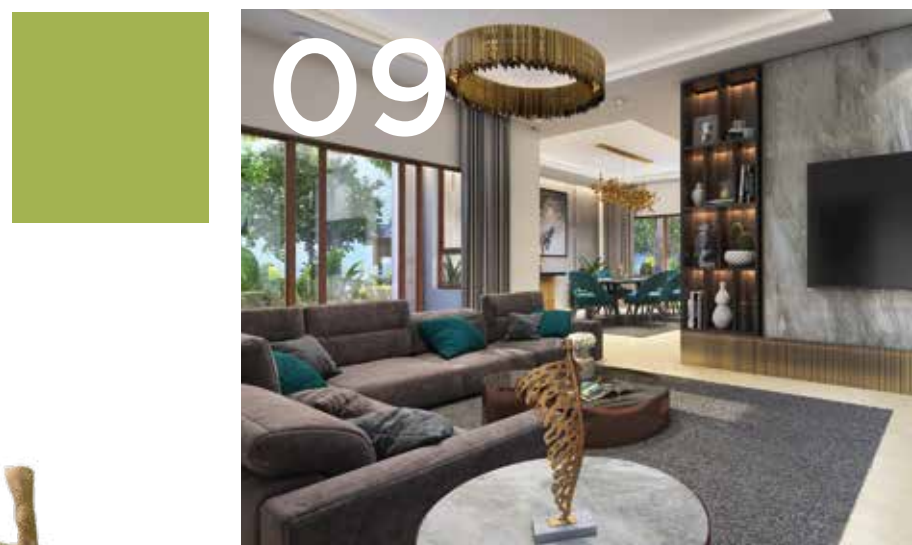

Manilkara Zapota

For Whom the Orchards Bloom

Welcome to NVT Symphony of Orchards

With spaces allocated exclusively to orchards with indigenous fruit-bearing trees, NVT Symphony of Orchards promises to be a villa project like no other. It is crafted for those who seek a return to a simpler time; one where you could step out of your home and lose yourself amidst nature's finest offerings: trees, birds, flowers, and fruits that grow naturally in a real orchard.

For those among us who grew up in an independent home, modern life must seem a far cry from that idyllic time. Instead of the complexes that many of our children live in today, our homes were surrounded by greenery. We used to dream up our games around the fruit trees. We would win, lose and learn life's lessons in the freedom of a safe, green space in

which to play. At NVT, we believe that is a critical ingredient of a positive childhood, one that contributes to a well-rounded personality.

This is why we're investing in the orchards with a range of indigenous fruit-bearing trees such as Guava, Mango, Sitaphal among others.

Ultimately we are seeking to create a return to childhood for you and the right kind of childhood for your children. One where you can slip out of your back door, cut across your backyard, and lose yourself in the shade canopy of a friendly fruit tree that whispers to you in the breeze. That's what childhoods should really be made of.

Why Childhood Amongst Trees is a Better Childhood

With orchards to grow up in, we seek to give children a closer bond with the Earth.

Something very profound has happened to children's relationship with nature over the last couple of decades. Our children just do not have the opportunity to play amidst nature anymore. Whether you blame shrinking spaces for nature or the exponential urbanization of our living spaces, the fact remains that our children's after-school lives are regimented more than ever.

The benefits of nature on children's psychological and physical well-being are many including lower stress, greater physical health, and improved creativity and concentration. Experts suggest that when kids stop going out into the natural world to play, it can affect not just their development as individuals, but society as a whole.

With orchards to grow up in, we seek to give children a closer bond with the earth.

The NVT Quality

Lifestyle & story

A real estate company where the founders and promoters truly understand the customers they sell to. The management team of NVT comprises alumni from some of the world's best universities like Carnegie Mellon University, Purdue University, The Wharton School and the Indian Institute of Technology. They collectively instill a great deal of commitment to quality practices with an obsession to create living spaces for people who see quality as their priority and settle for nothing less.

NVT Symphony of Orchards is an offering of NVT Quality Lifestyle (NVT-QL), part of the NVT group. The group has its origin in NVT Quality Certification, a 25-year quality certification body with offices in India, France, UK, Singapore, Japan, Philippines, USA, and operations around the world.

“At NVT Quality Lifestyle, we have always been passionate about building luxury homes for professionals: it is our raison d’etre.”

THE NVT JOURNEY

With over 25 years, NVT has its roots in quality with founder Chairman Mr. K.G. Garg having built one of the most trusted quality certification bodies in the aerospace industry. The zero tolerance for quality issues in the critical areas of aviation, space, and defence extended into the group's next foray into real estate. NVT Quality Lifestyle sought to bring into real estate a high level of professionalism and transparency, with Ivy League educated Directors Nitin, Vivek, and Tanuj taking over the reins. The trio brought with them rich experience from the corporate world that was infused into the company.

FOCUS ON VILLAS

NVT Quality Lifestyle found its niche in villas. With a special focus on villas, the group has successfully executed these projects: NVT Orchid Garden, NVT Arcot Vaksana, NVT Life Square and NVT Mystic Garden. There is a mastery of the craft from materials to specifications, design to execution that the team has perfected with each passing project.

ALWAYS THINKING QUALITY

The professional background of NVT Group's founder and directors has made its mission - Always Thinking Quality - a reality. Quality is a core belief at NVT Quality Lifestyle from design to specifications and construction. These three elements come together in building villas of the highest standard. The quality credo calls for rigour in technical specifications and empathy when it comes to understanding the customer's needs. The group believes that its customers, many of whom are Bangalore's leading professionals, deeply value the quality promised as they are highly quality conscious individuals themselves. This helps the brand find resonance with a growing community of professionals.

Story of an Obsession

At NVT Quality Lifestyle, we're simply obsessed with the crafting of our premium villas.

From the master plan to interconnected living spaces, from the choice of the finest materials from around the world to attention to detail and stringent quality processes, we're obsessed with delivering on our promise, on time. There is much that goes into building a villa with a never-before level of commitment and dedication. Welcome to our world of obsession!

Obsessed with Daylighting:
When designing our villas, we are obsessed with the intelligent use of skylights, designed in the main stairwell of our villas that are best placed to flood the home with natural light. Not only do they let in more natural light, they create a feeling of greater open space. What's more, indoor plants thrive and flourish in the brighter environment.

Q&A WITH TANUJ GARG, DIRECTOR, NVT QUALITY LIFESTYLE

Q. What would you say is the key philosophy that sets NVT Quality Lifestyle apart from the competition?

A. One engineering philosophy we make use of is Build Right First Time (BRFT). It is not everyone who can claim adherence to committed schedules as a differentiator, but then we are simply obsessed with doing it right, and doing it on time.

Watch the complete BRFT video on waterproofing on our website qualitylifestyle.in

Obsessed with Connected Outdoors:
When it comes to our villas we are obsessed with the idea of a balcony for every bedroom, a feat that not many can hope to achieve. Our reason for this firm belief lies in the value of the experience of being connected with the outdoors. We have ensured that each of your private space has its own extension into the outdoors in the form of balcony spaces.

Obsessed with Quality Finishing:
Finishing with finer details, at times, is easier said than done. In our experience of building award winning premium villas, we have come to learn that the devil is in the details. This is why we are obsessed with maniacal attention to finishing on the little things in a villa, but things that speak volumes in terms of the quality.

Obsessed with Attention to Detail:
Systematic planning and execution and standardization across processes help us achieve a culture of quality excellence. Stringent quality checks at every stage ensure that before a task moves on to the next milestone, it is done to the satisfaction of the standards and specifications laid down for the purpose.

Obsessed with Quality Partners:
Our obsession with delivering on quality extends into our choice of partners who are vital to fulfilling the promise made to our customers. We only work with the best-in-class marquee brand names when it comes to being our vendors.

Imagine for a moment, that you are about to enter the property and take in the sights at a stroll. Here is a glimpse of what you will see, hear, think and feel at the NVT Symphony of Orchards.

Grand Square

The first to catch your discerning eye is the Grand Square. Tastefully designed with cobbled stone, you pause by the water feature that sets a tone of calm and elegance. An open lawn, gardens, and a pavilion promise to be welcoming spaces for gatherings. A seating gazebo beckons for conversations to spark companionship. A connecting walkway arcs across the lawns to a sandpit and play area for the little ones. Every little bit of the design says, "Welcome to your own space."

A vibrant, high-quality architectural rendering of a garden. In the center is a calm pond with lily pads and small flowers. A wooden bridge with a railing crosses the pond on the right side. To the left, a person is walking on a path. The garden is filled with various trees, including some with red blossoms, and colorful plants like purple and pink flowers. In the background, a modern building with a glass facade is visible through the trees. The sky is blue with scattered white clouds. In the foreground, a series of flat, grey stones are laid out on a green lawn, leading towards the pond.

Splash of Calm

At the heart of the property, a serene pond welcomes you. You cross over it on a quaint bridge to walk past the jogging track, seating decks and yoga pavilions. You can breathe in the freshness of the air, surrounded by the trees and imagine a life lived to the fullest. There is nothing quite like an open expanse of water to induce a sense of calm in any surrounding.

Unwind at Club Sapodilla

Besides the Splash of Calm, you will find the Club Sapodilla with all that you could ask for. A swimming pool, a gym, squash court, badminton, table tennis, a library, a business centre, a yoga zone, a multi-purpose hall and Café Robusta.

A vibrant, sunlit outdoor playground area. A wide, winding brick path leads from the foreground into the background. To the left of the path is a lush green lawn with several large, leafy trees, some of which are heavily laden with bright red fruit. In the middle ground, a modern playground structure with a blue slide and a blue-roofed tower stands on a blue safety mat. The path is bordered by low-lying green plants and small white flowers. To the right of the path, there are more trees and a white picket fence. In the background, a row of modern, light-colored houses with dark roofs is visible under a bright blue sky with scattered white clouds.

Joys of Playtime

As you amble deeper into the property you will see how we believe in creating a carefree childhood, surrounded by nature and dotted with memories that last a lifetime. The play area is designed for free, undirected play, made safe with modern equipment. The fruit trees stand sentinel by the sides, creating a room of green for your little ones. We aim to help foster a closer bond with nature as well as with each other.

A modern two-story house with a large courtyard. The house has a white and grey facade with large windows and a balcony. The courtyard is paved with light-colored stone tiles and features several large trees, including a prominent one on the left and another on the right. The garden is filled with various plants, including tall grasses, white daisies, and purple flowers. A white picket fence runs along the edge of the garden. The sky is blue with some clouds.

Moments of Togetherness

Now whether you choose to take a right or a left, you are sure to encounter one of the two Interactive Zones designed simply to meet the basic human need for companionship. You see warm spaces for sitting together, under the shade of creepers over a pergola. It is easy to imagine the elders in your family finishing an evening walk and getting together to catch up with their circle of friends.

Arenas for sport

What's life without the thrill of sport? In an age where most of us get our sporting fix from televised tournaments, we believe that sports are best experienced when you hear the sound of a racquet on the ball, or swoosh of a ball passing through the hoop. That's why we have created spaces for sporting action: a tennis court and cricket pitch nestled amidst the orchards on one side and a basketball court on the other. You will find it as you finish your walk, and we hope it will inspire you to lace up your sports shoes, grab your kit bag and head out to the courts for some well-earned playtime to burn the calories in the best possible way while playing tennis, cricket, and basketball with your fellow players.

The Backyard

Backstory

NVT Symphony of Orchards offers every villa a private backyard, with surprising and delightful results.

Imagine living in a villa where the backdoor opens into a garden space that you can call your own. At NVT Symphony of Orchards, every single villa has its own backyard: a slice of the world that is all yours - for you to decide how you make the most of it.

Your backyard, your way

You might want to grow your own fresh vegetables in a kitchen garden, or perhaps set up a kids play area complete with a sand-pit and slide. It could even become a private gathering space where you could

host your friends over beverages and a barbecue on a lazy Sunday afternoon. The possibilities of what you could do with your own personal backyard space are truly unlimited.

No More Dark Corners

But there are more reasons why a backyard makes wonderful sense. Most villas have a dark corner behind the quadrant, but when the rooms at the back open into an open area, we achieve phenomenal light and

ventilation across the villa. It results in a significant inter-villa distance that gives you a sense of being in your own space when you step out into your backyard.

The Grand Rear Elevation

Most importantly, a backyard helps

us achieve a rear elevation that's as grand and attractive as the front both in form and function. The back patio contributes to the design of elegant balconies that overlook a garden, without compromising on privacy.

Gazing at a ϕ ky Full of Stars

Imagine taking a leaf out of the book of our forefathers several centuries ago and spending an evening gazing into the night sky from the spacious lounge and terrace of your villa at NVT Symphony of Orchards. Connect the dots, quite literally, as you rediscover the Big Dipper and Orion constellations that turn the sky into a canvas for your imagination.

A ϕ kylit Reading Space

On days you wish to curl with a book and a steaming cup, imagine the luxury of doing that under a skylight that streams natural sunlight onto your books and pages. At NVT Symphony of Orchards, we build skylights aesthetically to ensure an abundance of daylight into your villa. We've noticed that it makes for happier people living there!

Masterplan

The masterplan of NVT Symphony of Orchards balances living spaces with orchard greenery in the finest possible way. We wish for our fruit trees to be as much at home as our residents. And that is why we've created green spaces, first in our minds, and then on the ground.

How to Plan That Perfect Picnic at NVT & Symphony of Orchards

With several areas earmarked as picnic spots, here's your ready reckoner to prepare for that perfect outing.

If outdoor picnics are your thing, then NVT Symphony of Orchards is the place for you. To do Sunday right, simply stroll over with a picnic basket to the orchard, or bridge nearby for a leisurely brunch. If that sounds just about perfect, that's because it is!

PICNIC SPOTS AT A GLANCE:

The Barbecue Picnic:

Imagine a beautifully manicured lawn with space where a pop-up farmer's market comes up over the weekend. A cosy barbecue corner has delicious aromas wafting into the air as you bond with your family and friends over a picnic. Stretch out on your picnic mat next to the shade of the orchards and well, contemplate life.

The Picnic by the Bridge:

This picnic spot is set apart by its bridges and tree-lined water feature. With lush teak, jackfruit and gulmohar trees standing guard, spread out your picnic mat in the open space and soak in the tranquillity punctuated only by conversation. Oh, and keep an eye out for the elusive kingfishers and bulbuls.

The Twilight Picnic:

Designed especially for the senior citizens who are young at heart, this picnic spot is set apart by its walkways, exercise pavilions and seating plazas. Creepers and succulents over the granite pergolas make for a warm and inviting atmosphere, perfect for an evening of thermos coffee and a few munchies.

The Picnic Planning Guide

Choose a great basket:

No picnic is complete without a basket that holds all that you need to carry. Remember to bring cutlery, paper towels, reusable cups and a trash bag.

Carry more food than you think you will need:

The outdoors can make you hungrier than usual, so pack a little extra food than you would normally. Easy to eat, yummy options include dry sandwiches, cookies, rolls or finger food.

Pack in reverse order:

The best way to pack your picnic basket is in reverse order, with the picnic mat on the top and the cutlery at the bottom. Ensure perishables or delicate items do not get squashed by heavier items on top.

Pick the location:

The right picnic location is half the work done. Fortunately NVT Symphony of Orchards lets you choose between a number of great picnic locations, depending on the occasion and your mood.

Plan activities or games:

Most times, the outdoors will spark ideas of what you can do, but remember to carry a ball, a frisbee or a few board games for wholesome family fun.

At NVT Symphony of Orchards, enjoying the outdoors is a big part of a life filled with meaning. A picnic is just one of the ways we hope you will bring the outdoors into your life.

Staying Ahead of the Work from Home Curve

The changing world has made Work from Home a necessity instead of an option. Also, the aspirations of executives are evolving and real estate offerings need to keep pace with it. As a real estate company tuned to the needs of professionals, we have incorporated the remote work trend into our design philosophies.

The designs of NVT Quality Lifestyle's villa projects account for the fact that the home is likely to be a workspace. Here is how:

Quiet Zones in Villas:

A designated workspace created on the first floor, the area ensures minimum noise disturbances from within as well as outside. Also, all uPVC windows aid a noise-free environment to work freely.

Fibre-optic cabling for high-speed communication:

A robust network of fibre optic cables in the community to ensure high-speed for voice and broadband.

Floor Design of Work area:

Spacious enough to let you manage office clutter and important documents without comprising on your family's living spaces. Spaces that have the potential to be scaled up to meet any short term workspace requirements- with another room facing the office space, gives the flexibility to scale up for any requirement.

Networking with a Community of Like-Minded Professionals:

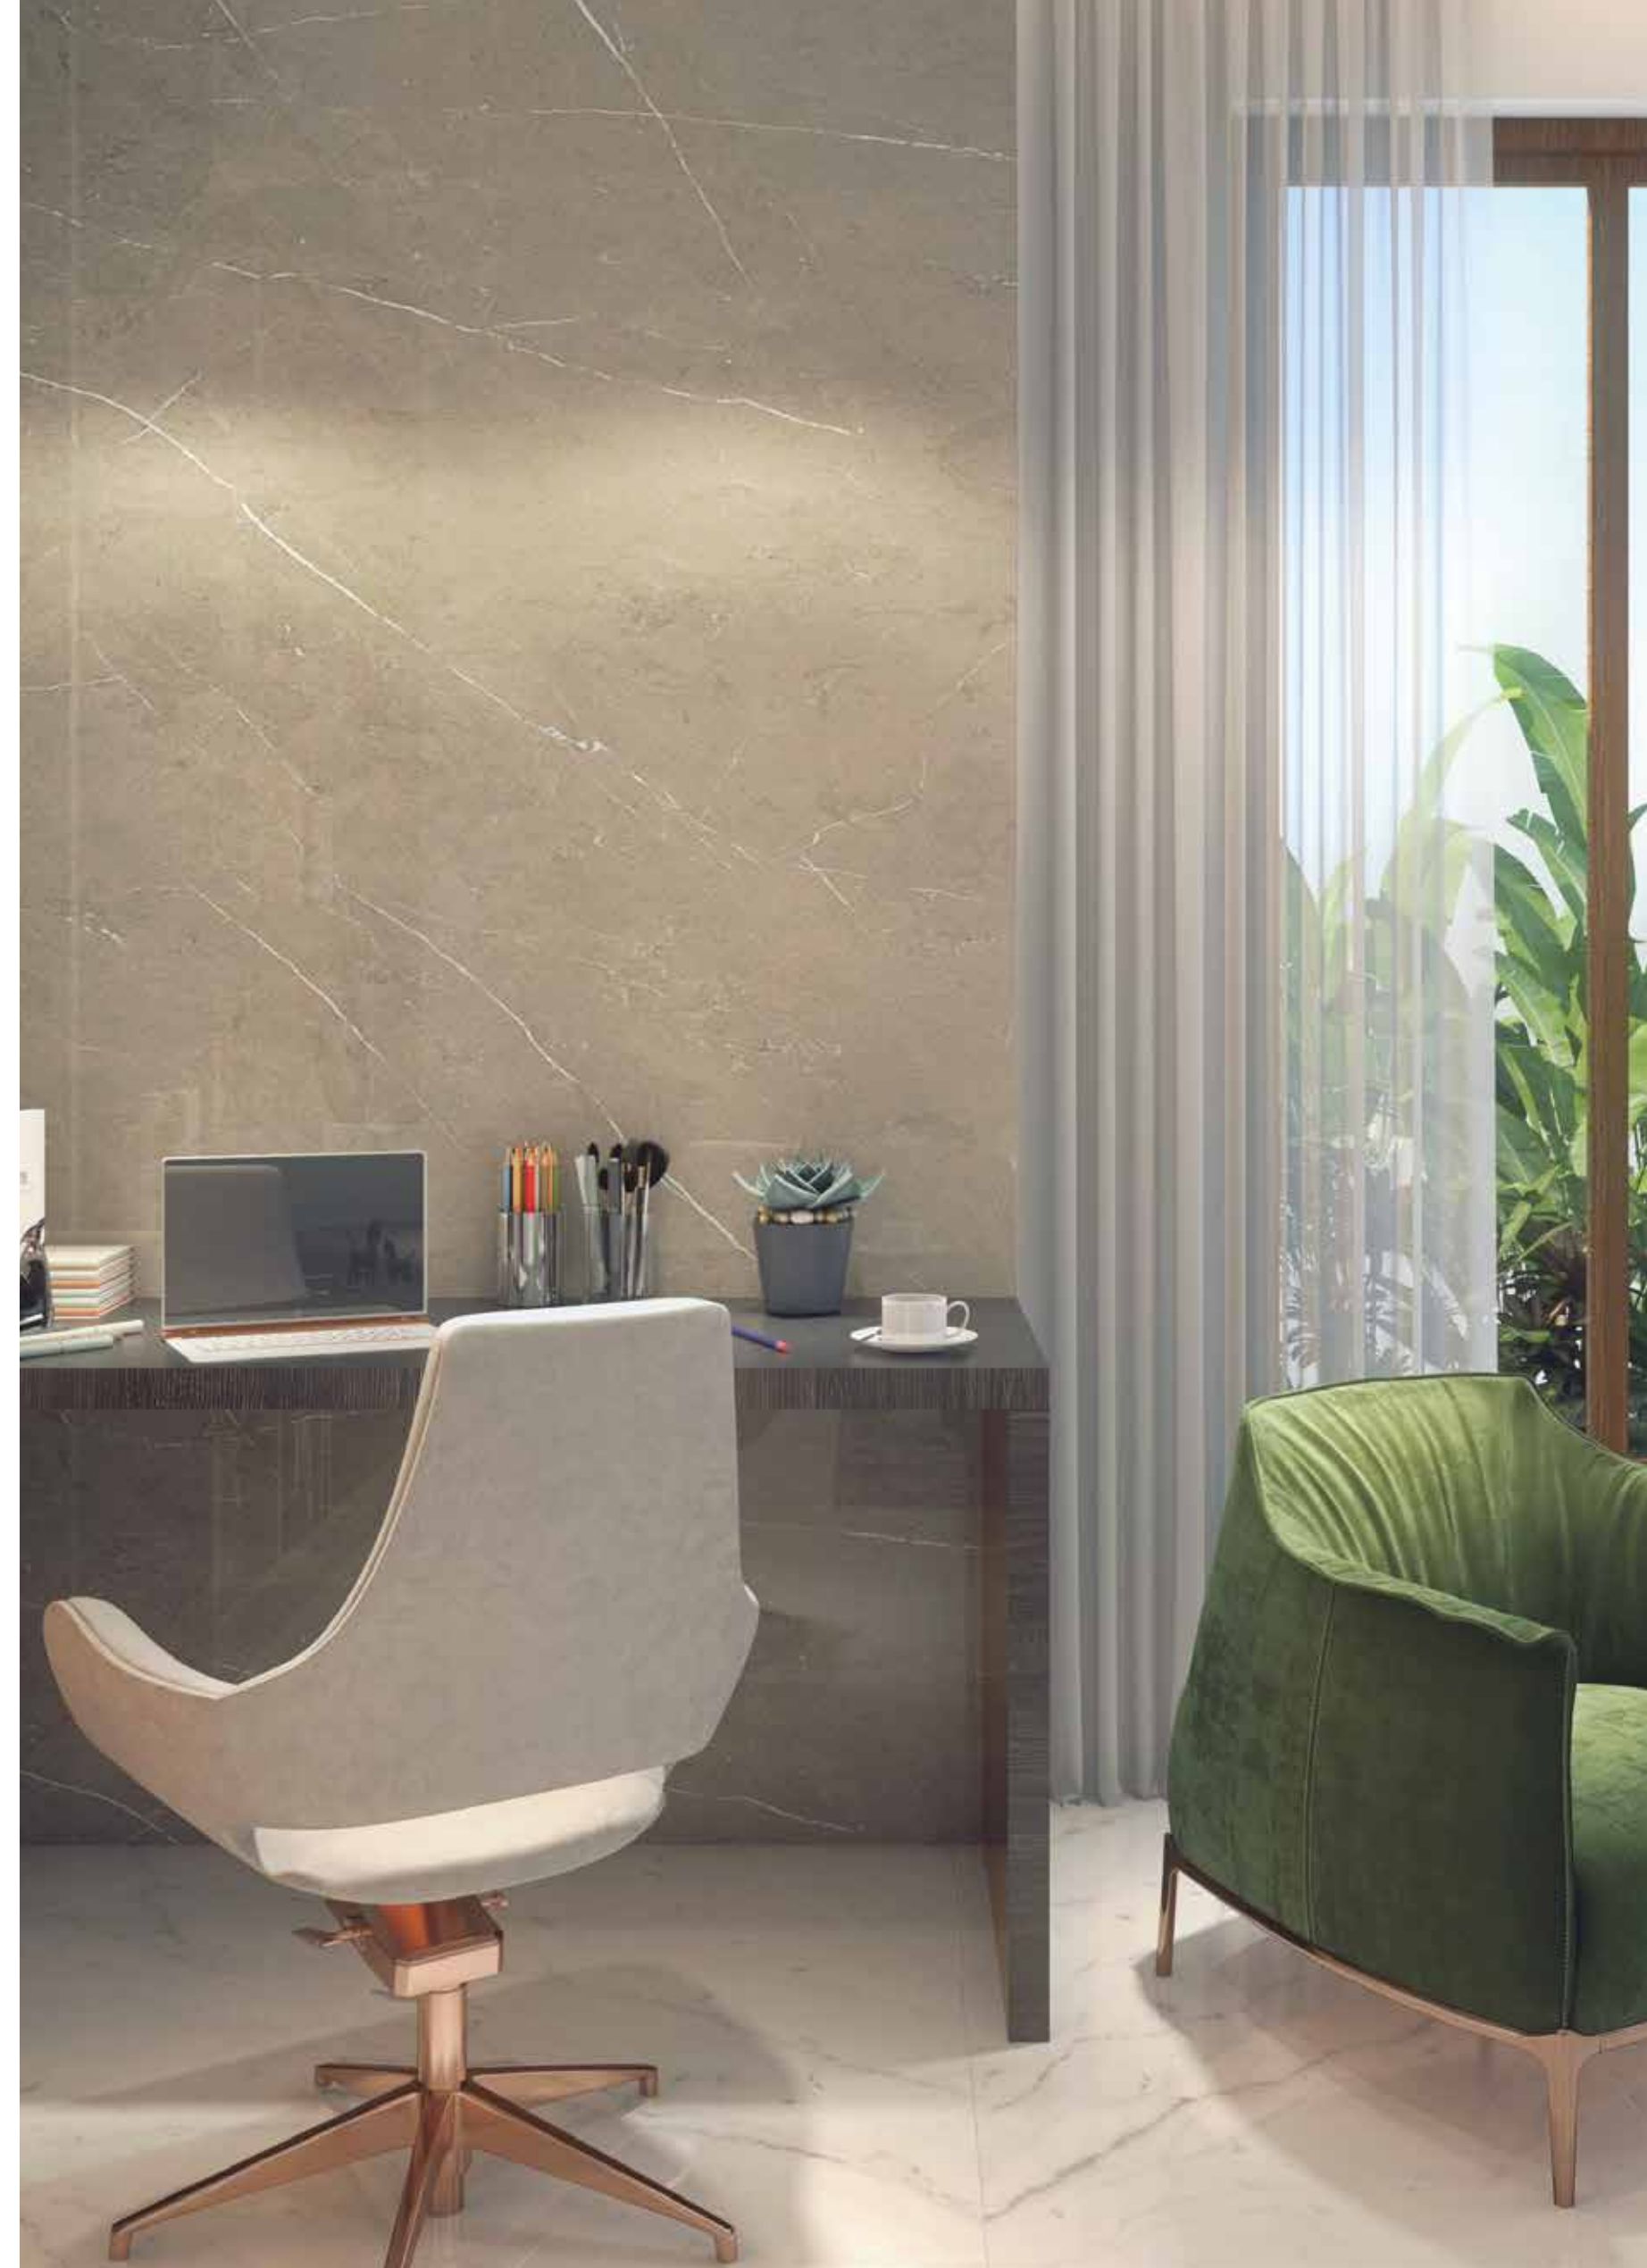

The villa communities are becoming networking opportunities for likeminded professionals for career advancement, assistance, mentorship and growth.

Business Centre at Club Sapodilla:

The business centre has been thoughtfully designed for days when you prefer to work from home but from a space not within your home. The office space offers the comfort and convenience of working from home.

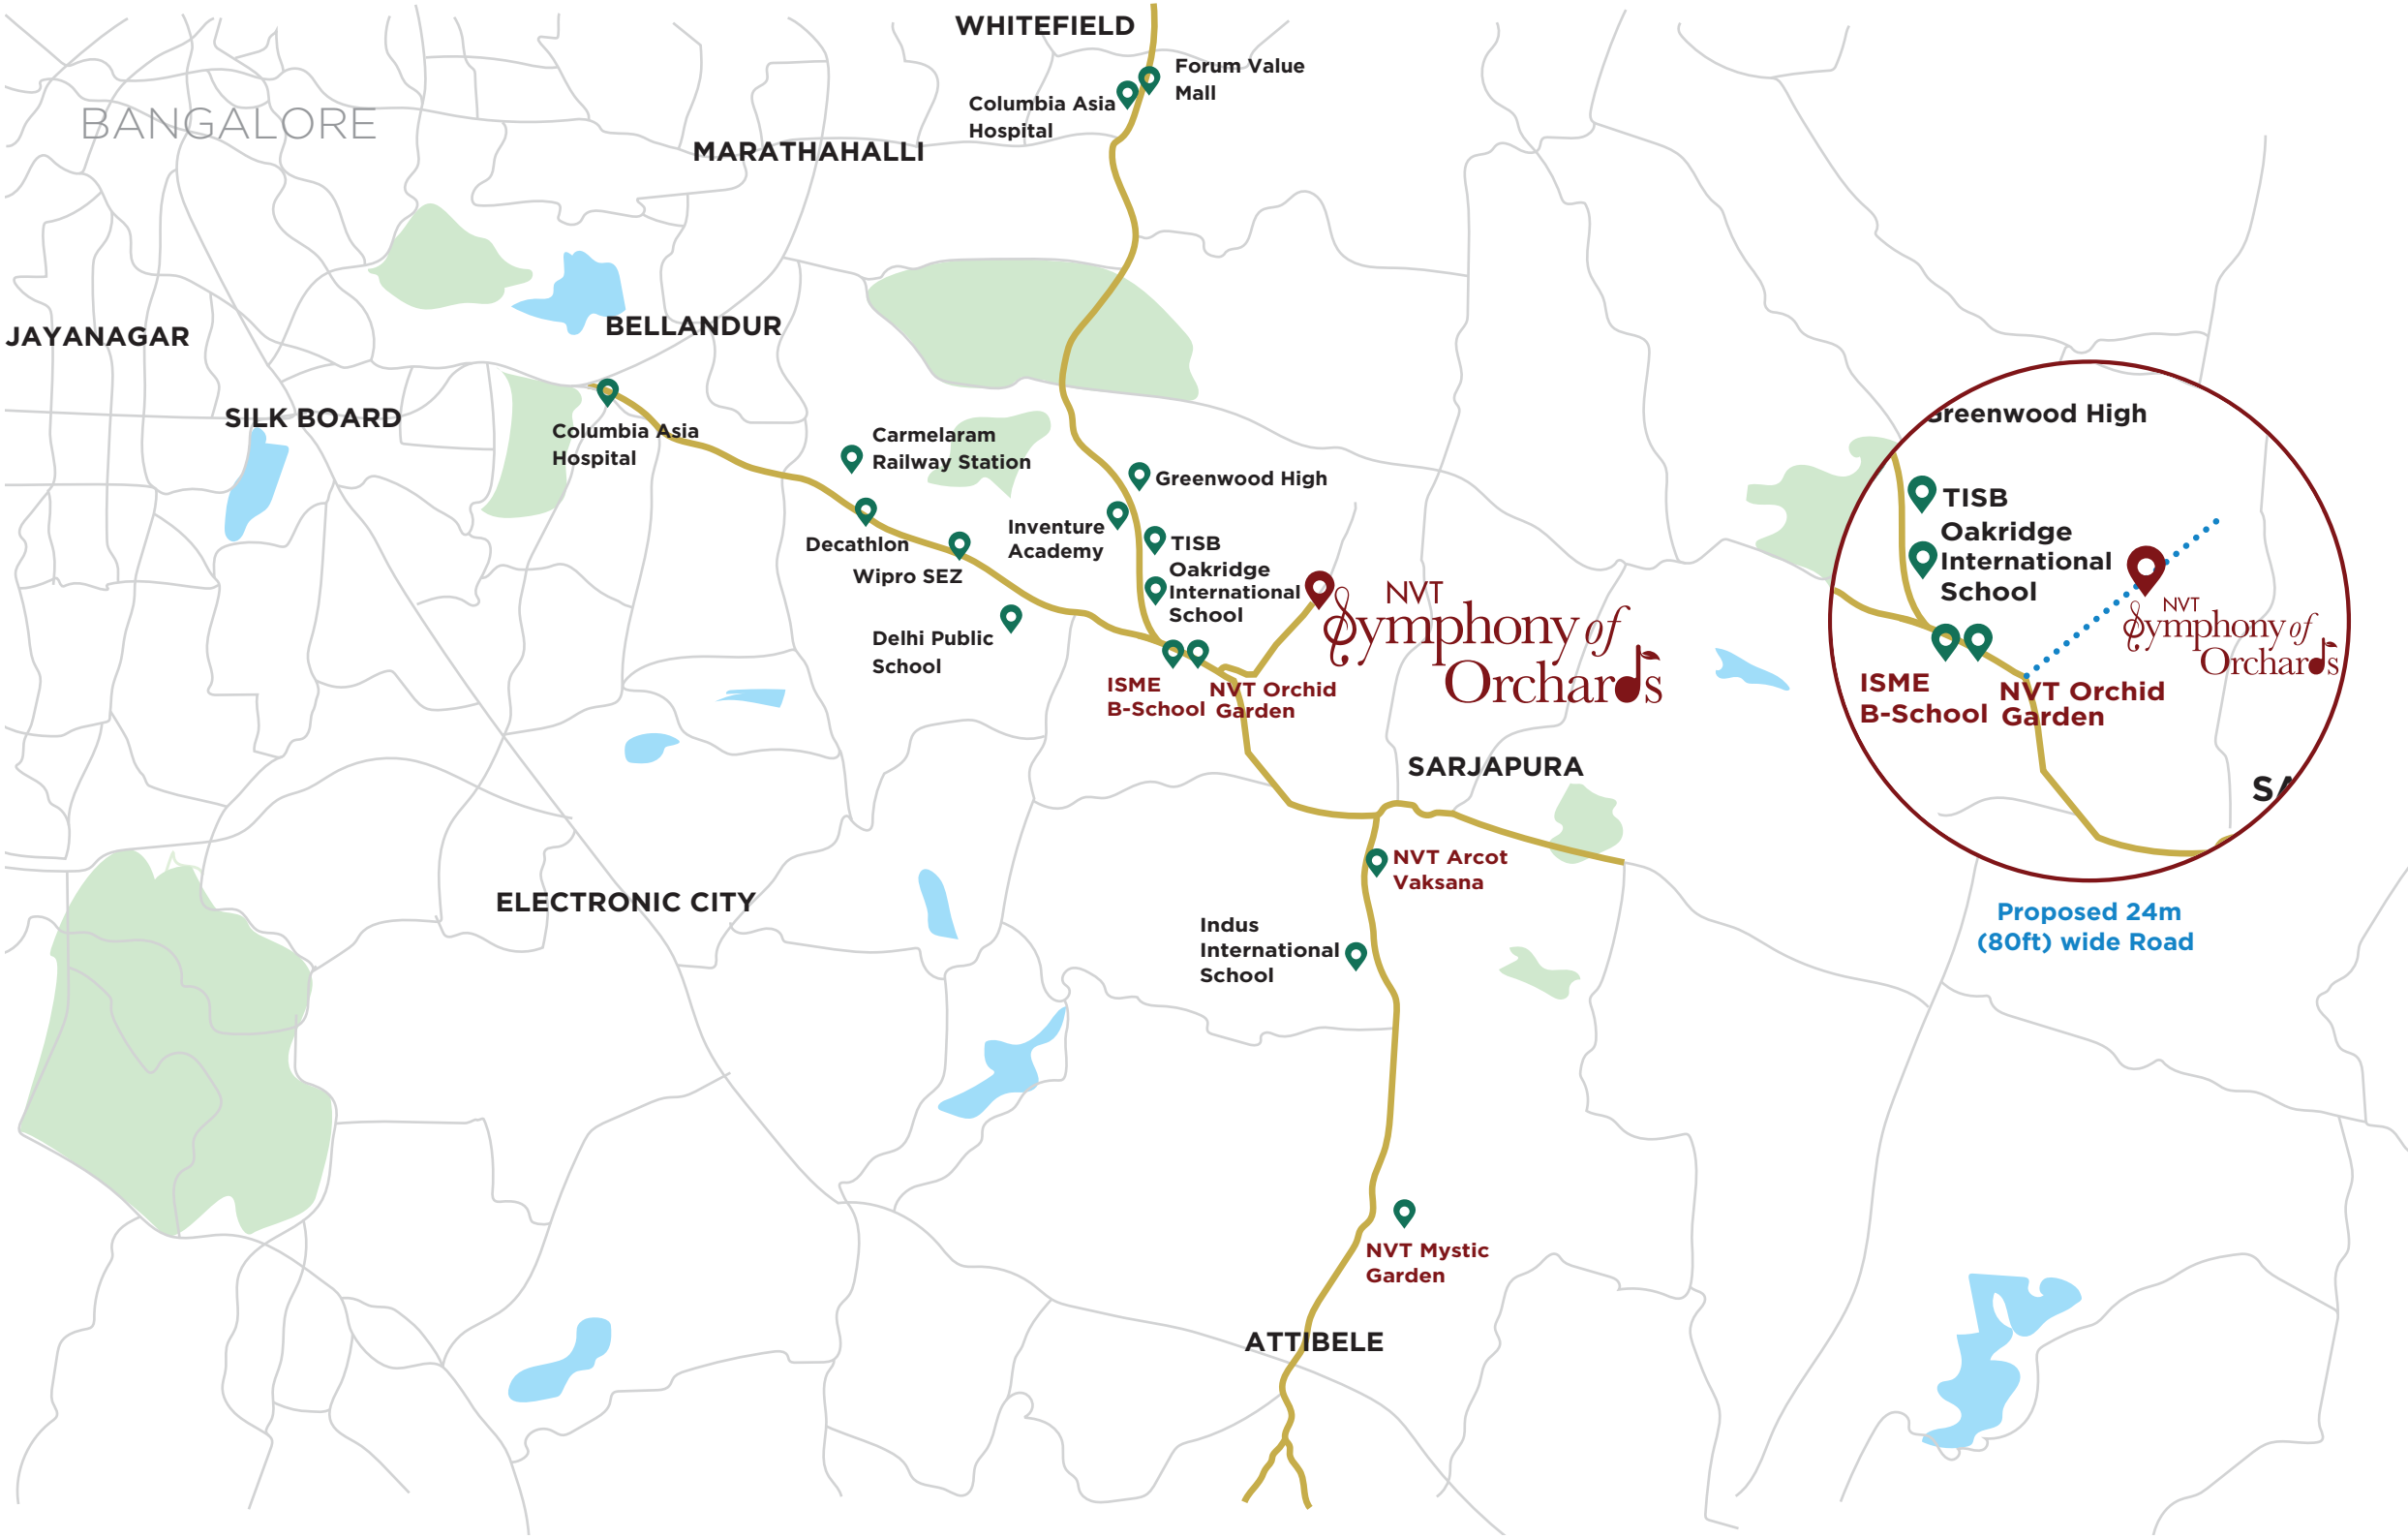

Work by the Orchards:

Instead of being cooped up at home all day on a workday, you could step out into the shaded orchard area and use a common area bench to take a work call surrounded by bird calls and breeze.
