QUALITY THAT RUNS DEEPER THAN THE SURFACE.

Every material, finish, and fitting
at Florique has been chosen to last.

PROJECT LEVEL

SUPER STRUCTURE

RCC “Structural Shear Wall System”, designed to withstand wind & seismic loads as per IS Codes

NON-STRUCTURAL WALLS

RCC walls / block masonry where required as per design

UNIT LEVEL

DRAWING / LIVING / HOME OFFICE / DINING / POOJA ROOM

FLOOR Vitrified tile flooring, sized 800X1600MM, of reputed make	WALLS Gypsum punning + putty + acrylic primer + 2 coats of emulsion paint of low VOC
--	--

MASTER BEDROOM

FLOOR Vitrified tile flooring, sized 600X1200MM, of reputed make	WALLS Gypsum punning + putty + acrylic primer + 2 coats of emulsion paint of low VOC
--	--

MASTER BEDROOM WALK-IN CLOSET

FLOOR Vitrified tile flooring, sized 600X1200MM, of reputed make	WALLS Gypsum punning + putty + acrylic primer + 2 coats of emulsion paint of low VOC
--	--

MASTER BEDROOM BATHROOM

FLOOR Vitrified tile flooring, sized 600X1200MM, of reputed make	WALLS Vitrified tile cladding, sized 600X1200MM, of reputed make
PLUMBING FIXTURES - CP & sanitary fixtures of reputed make - Hand shower of reputed make	CEILING Grid false ceiling
	LIGHTS Provision for lighting

OTHER BEDROOMS

FLOOR Vitrified tile flooring, sized 600X1200MM, of reputed make	WALLS Gypsum punning + putty + acrylic primer + 2 coats of emulsion paint of low VOC
--	--

OTHER BEDROOM BATHROOMS

FLOOR Vitrified tile flooring, sized 600X600MM, of reputed make	WALLS Vitrified tile cladding, sized 600X1200MM, of reputed make
PLUMBING FIXTURES CP & sanitary fixtures of reputed make	CEILING Grid false ceiling
	LIGHTS Provision for lighting

POWDER ROOM

FLOOR Vitrified tile flooring, sized 600X600MM, of reputed make	WALLS - Vitrified tile cladding upto 4’ height, sized 600X1200MM, of reputed make
CEILING Grid false ceiling	- Remaining wall area above dado: Gypsum punning + putty + acrylic primer + 2 coats of emulsion paint of low VOC
PLUMBING FIXTURES CP & sanitary fixtures of reputed make	LIGHTS Provision for lighting

UTILITY

FLOOR Matte-finish vitrified tiles, sized 600X600MM, of reputed make	WALLS – 4’ height wall dadoing: Vitrified tiles, sized 600X600MM, of reputed make - Remaining wall area above dado: Putty + acrylic primer + 2 coats of emulsion paint of low VOC
APPLIANCES Provision of electrical for washing machine & dishwasher	

KITCHEN

FLOOR Vitrified tile flooring, sized 800X1600MM, of reputed make	WALLS - Gypsum punning + putty + acrylic primer + 2 coats of emulsion paint of low VOC - Wall dado not provided
APPLIANCES Provision of electrical sockets for fridge, oven, hob, chimney & mixer grinder	EXHAUST Provision for exhaust system
SENSORS Equipped with sensors to detect heat & smoke	DRINKING WATER Provision for RO point with electrical socket above the sink
COUNTER TOP & SINK Not provided	

BALCONY / SIT-OUTS

FLOOR Matte-finish vitrified tiles, sized 600X600MM, of reputed make	WALLS Putty + acrylic primer + 2 coats of emulsion paint of low VOC
ELECTRICAL Provision of electrical socket in sit-outs	LIGHTS Provision for lighting
RAILING / PARAPET MS Railing as per design intent	

DOORS & WINDOWS

MAIN ENTRANCE - 8’ height engineered wood frame & flush shutter with veneer - Aesthetically designed & finished with melamine polish on both sides - Hardware of reputed make	INTERNAL - 8’ height engineered wood frame & flush shutter with veneer - Aesthetically designed & finished with melamine polish on both sides - Hardware of reputed make
TOILET - 8’ height engineered wood frame & flush shutter with veneer - Aesthetically designed & finished with melamine polish on the front with matching laminate on the backside - Hardware of reputed make	UTILITY 8’ height UPVC door
WINDOWS - UPVC window system with float glass - Provision for mosquito mesh track	BALCONY & SIT-OUT - 8’ height UPVC door frames - Float glass sliding panels - Provision for mosquito mesh track

INTEGRATED SMART BUILDING CONTROL SYSTEMS

FAS / FPS - Equipped with sensors to detect heat, CO2 & CO - Sprinklers installed as per fire regulations	LPG Uninterrupted reticulated / piped gas system supply with gas detection & auto shut-off valves
	ACCESS CONTROL Main door integrated with a digital lock of reputed make

MEP PROVISIONS & AMENITIES

ELECTRICAL - 3 phase supply with MCB for each distribution board, of reputed make - Provision for air conditioners in drawing, living, dining & all bedrooms & geysers in all bedrooms - Provision of modular switches & sockets of reputed make	PHE - Gravity-based water supply system with 100% treated water - Individual water metering for units
COMMUNICATION App-based central communication system	ELV - FTTH / TV points in drawing, living & all bedrooms - Provision of internet port in drawing, living & all bedrooms

BLOCK LEVEL

WALL FINISHES

TOWER

INTERNAL WALLS Gypsum punning + 2 coats of putty + acrylic primer + 2 coats of emulsion paint of low VOC	BUILDING ENVELOPE Exterior grade paint over premium grade texture as per design intent
ENTRANCE LOUNGE Grand double height entrance lounge with access from basement & provision for emergency entrance at the podium level	

COMMON AREA

CORRIDOR Gypsum punning + 2 coats of putty + acrylic primer + 2 coats of emulsion paint of low VOC	
LIFT LOBBY Granite or large format vitrified tile cladding as per architect’s design intent	

STAIRCASES 2 coats of putty + acrylic primer + 2 coats of emulsion paint of low VOC

CEILING

COMMON AREA

ARRIVAL LOBBY / LIFT LOBBY - False ceiling with gypsum board, as per design intent - 2 coats of putty + acrylic primer + 2 coats of emulsion paint of low VOC	
--	--

STAIRCASES 2 coats of putty + acrylic primer + 2 coats of emulsion paint of low VOC
CORRIDOR - False ceiling with gypsum board, as per design intent - 2 coats of putty + acrylic primer + 2 coats of emulsion paint of low VOC

FLOORING

COMMON AREA

CORRIDOR Vitrified tile flooring, sized 800x1600MM or granite, as per architect’s design intent	
STAIRCASES Granite or natural stone flooring	

LIFT LOBBY Granite or large format vitrified tiles as per architect’s design intent

MEP PROVISIONS & AMENITIES (SITE / COMMON AREAS)

SOLID WASTE MANAGEMENT
Garbage collection done manually & fed to organic converter as per regulatory norms

PARKING
Parking is provided as per regulatory norms

WATER SOFTENER
Fully treated water made available through water treatment plant (WTP)

Lighting & Smart Controls
- Provision for lighting as per design intent
- Sensor & timer-based lighting control system for entire site & common areas

ACCESS CONTROL
- Main gate & basement entry integrated with smart & interactive security systems including boom barriers & crash barriers as per design
- Separate entry for visitors
- Surveillance cameras covering entire site & common areas

STP
- Sewage treatment plant of adequate capacity as per norms is provided
- Treated water from STP will be used for landscaping & WC flushing purpose

POWER BACKUP
100% power backup using DG sets with acoustic enclosure

BMS
Centralised BMS controls for common MEP services

COMMUNICATION
App-based central communication system

EV CHARGING
Provision for EV charging ports as per regulatory norms

LIFTS
Each block is equipped with 4 energy-efficient high speed automatic passenger elevators with emergency rescue system & 1 service elevator of reputed make

FAS / FPS
- Equipped with smoke detectors & sensors to detect heat
- Sprinklers & hydrants are installed as per fire regulations
- Fire command centre is provided for every building as per regulations

EVERYDAY CALM IN THE HEART OF THE CITY.

Located in Thanisandra, Florique enjoys seamless connectivity to major IT hubs, swift access to the Outer Ring Road — all while being just moments away from renowned schools, healthcare facilities, and vibrant shopping centres.
